He bought some Tonopah Divide at 3-4c per share. We do not know what he sold it for, but he must have got a good price.

conditions everywhere indicate a big mining market within the next three months. We believe that the meany Divides will prove a bonanza to anyone who takes them on now. We believe that Rosetta will return a profit of 1000 per cent or more in sixty days. They are working now in a section directly under that portion of the surface where values around \$2000 per ton are not uncommon.
